

Bass Connections 2017

Dance 308/ECE 364/ISIS 376/Thst 364: Performance and Technology

Performance in the Community | ISC

Martin Brooke ECE, Thomas DeFrantz AAAS/DANCE/THEATRST

Tide

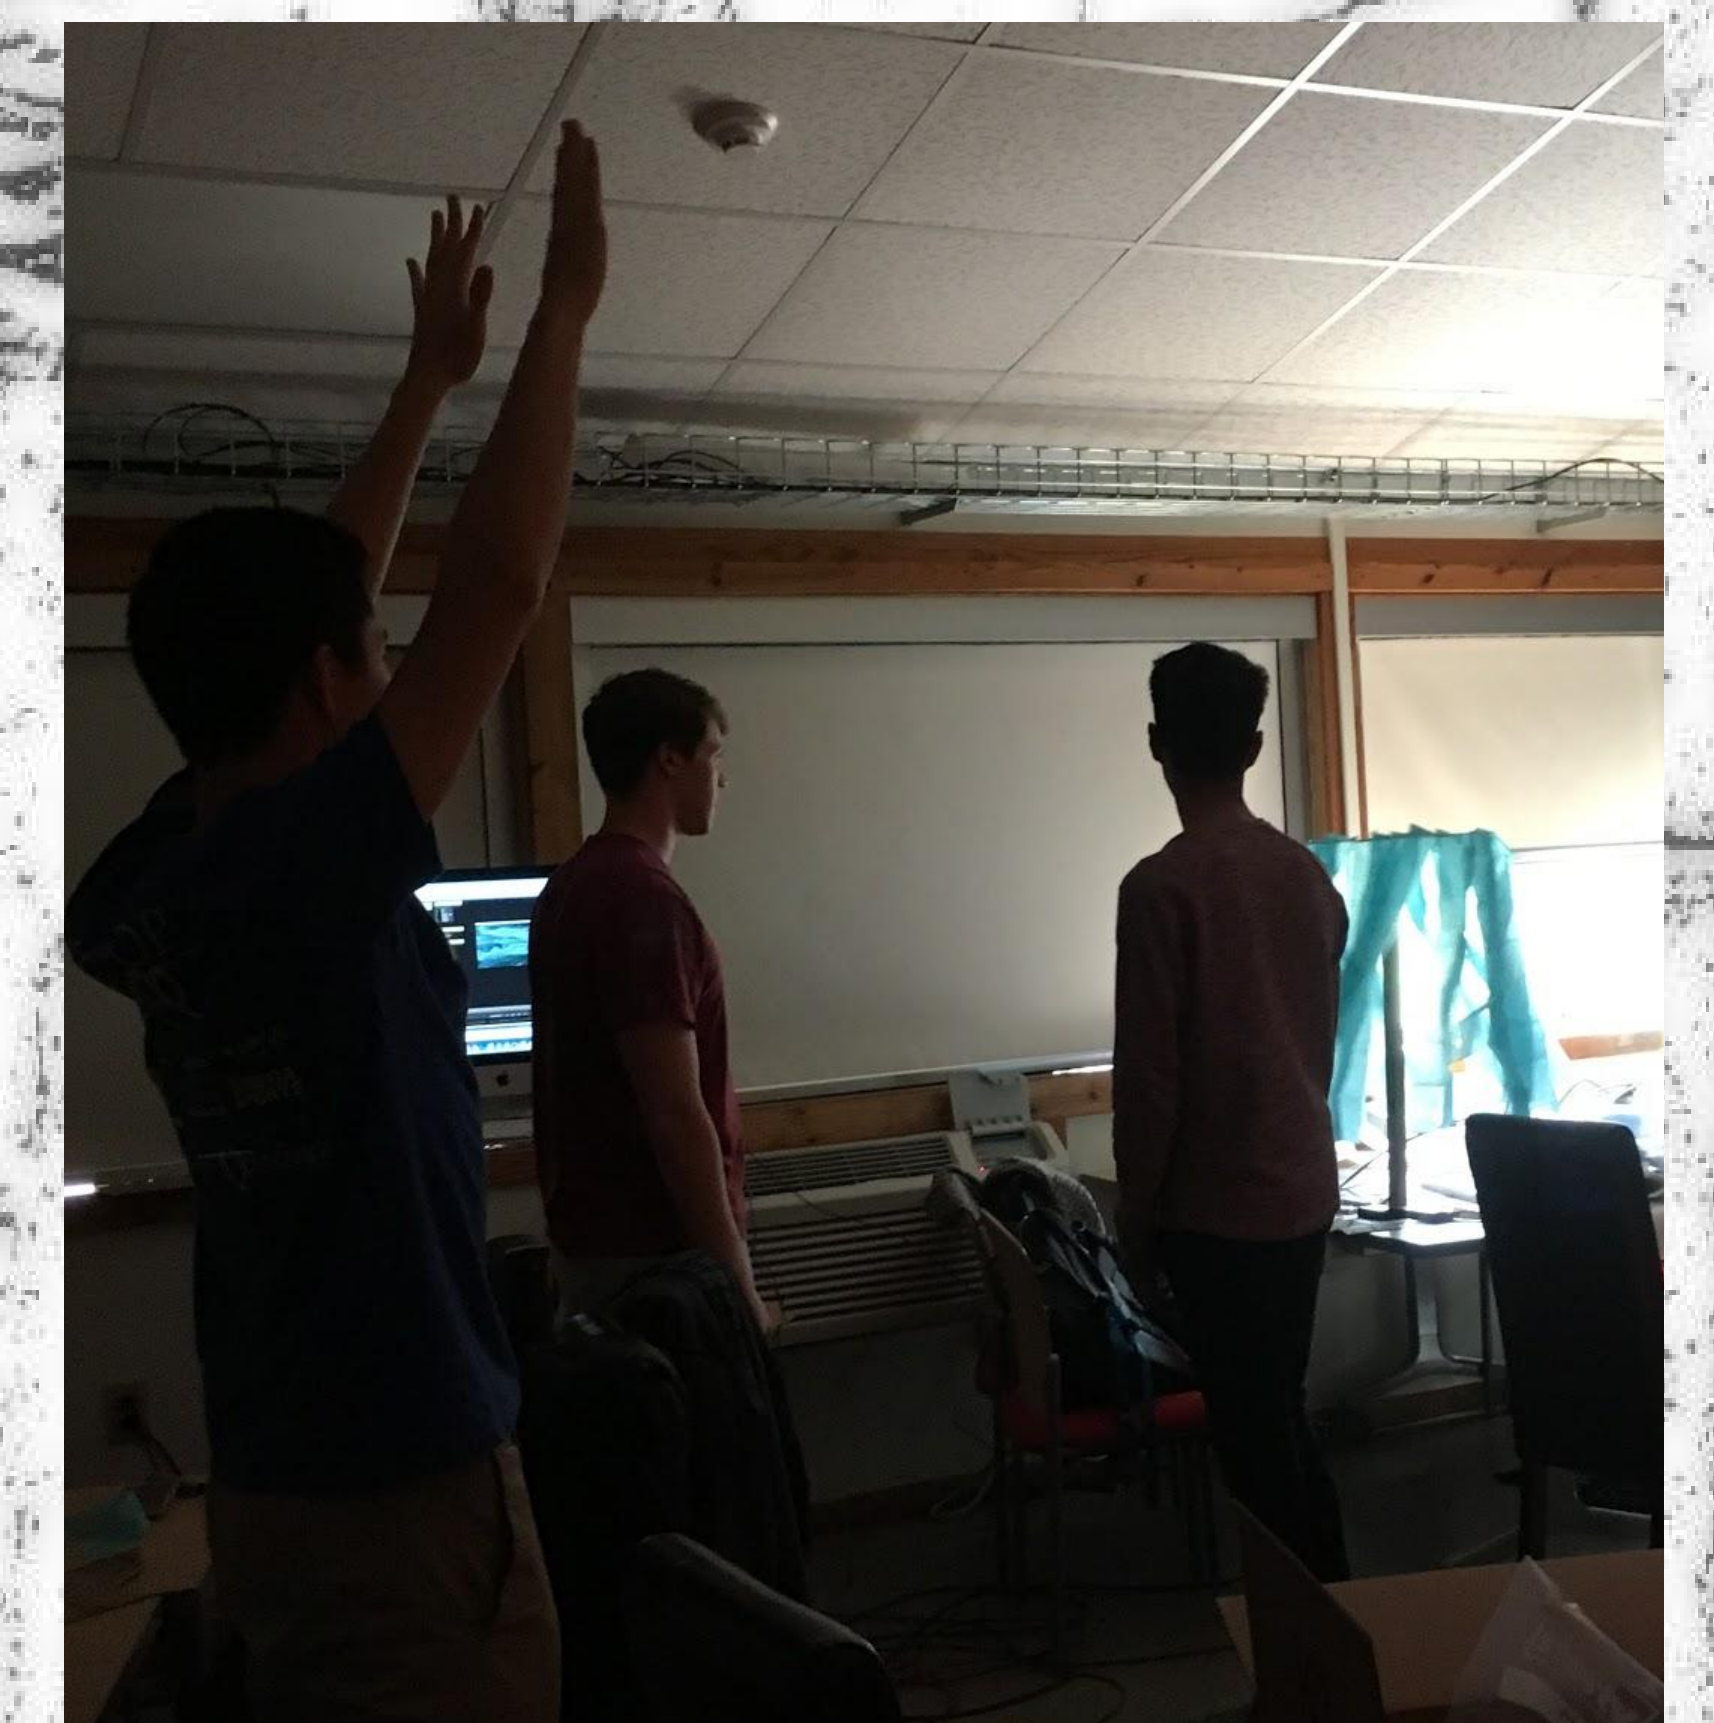

Tide developed a human powered Tide! And control over time.

Students created a series of performances that explored ways to bring performance to the community and convey the joy of the ocean and the earth's water to others. They have created increasingly complex art using digital media, microcontrollers, and motion tracking. Their work was on display at the Duke Choreolab 2017, and in Youtube videos:

Spray

Spray brought us the power of Pisodeon

Foam

Foams wishing well takes it to the big screen.

Surf

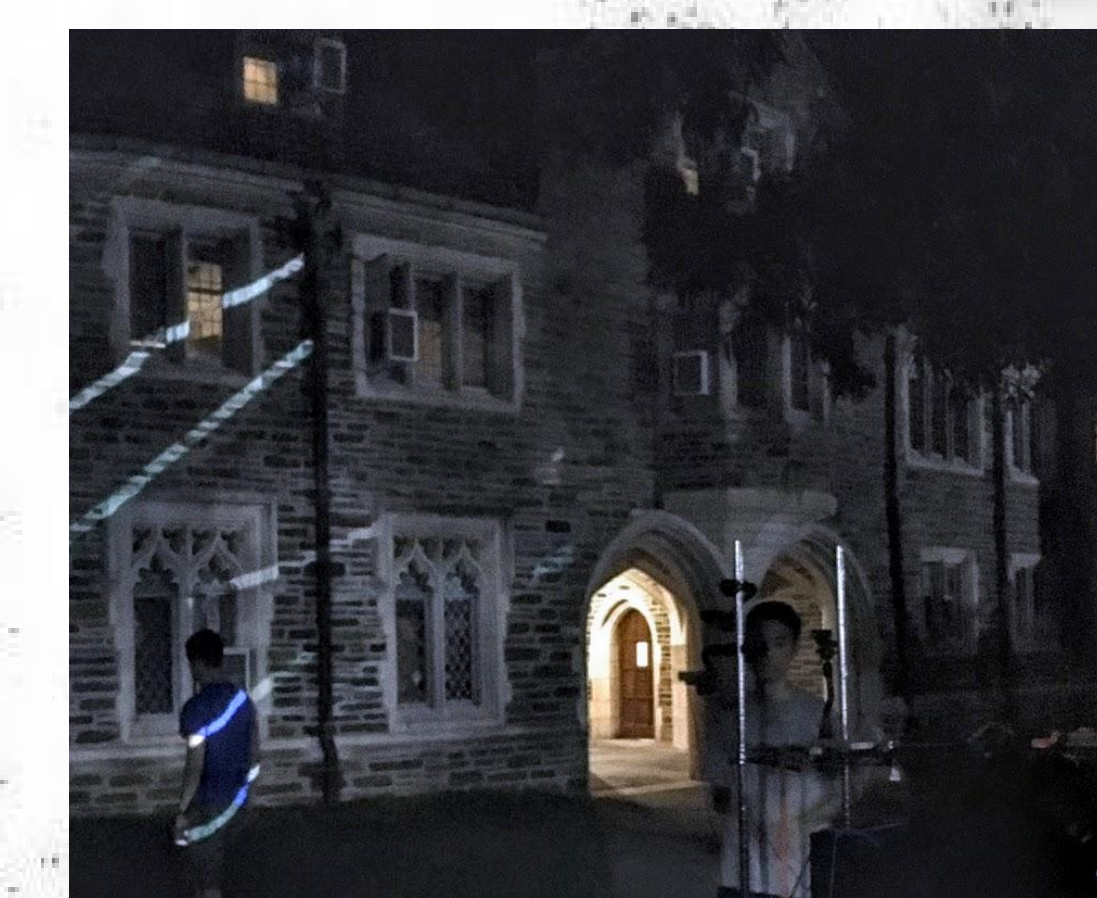

Surf decided to feed Barbie to the sharks

Summer 2016

In Summer we built a cart to illuminate the Campus and Durham

Fog

Fog gave us control of the weather
